TURKEY MUST PAY

The United States is Not Going to Wait Very Long For An Answer.

A NEW NOTE HANDED TO THE PORTE

As Strong as a Diplomatic Note Could Be Made Without Actually Becoming an Ultimatum.

President McKinley is Likely to Call Upon Congress for an Indication of His Wish in the Matter.

Constantinople, May 24.—The United States legation, having waited four weeks for a reply to the note of April 24 regarding the American indemnity claims, Mr. Lloyd Garrison, United States charge d'affaires, has handed to Tewfik Pasha, minister of foreign affairs, a new note, couched in more precise terms and insisting upon a prompt settlement.

The note produced a great impression, as the porte thought the matter pressing, if not absolutely urgent. It is believed that the United States will not wait so long this time for an answer.

The American legation has made a satisfactory impression upon the porte.

WILL NOT BE COMPROMISED.

Congress May Be Called Upon By the President to Take Action in the Matter.

Washington, May 24.—Beyond the statement that the department is still earnestly prosecuting the indemnity claims against the Turkish government, the officials of the state department decline to indicate the character of the last instruction sent to Charge d'affaires in relation to these claims. Therefore, it is to be assumed, that the Constantinople dispatch accurately sets out the character of the communication. It is certainly not an ultimatum, but is believed to be as strong in its representations as a diplomatic note could be made without actually becoming an ultimatum.

It is probable that before taking this step the president might call on congress, the war-making power, for an indication of its wish in the matter, so as to ensure full support in the execution of any policy which he may feel called upon to adopt.

The fact that the last note to Mr. Griseom was handed the very day that Ahmed Pasha landed in New York, recently clothed with some mission in connection with this missionary claim, has given rise to a belief here that the United States government will not give its sanction to any compromise of the claims as has been suggested. The government having, at the instance of the Americans, undertaken to present and collect the claims, must certainly be consulted before it sanctions this withdrawal, so that any effort to arrange for a settlement of the claims between the claimants and the Turkish representatives, under cover of the purchase of a warship or otherwise, would probably have to be made in matter of public record, if permitted at all. If this is done, it is hard to perceive what advantage is to accrue to the Turkish government from such a roundabout method of settlement, which, after all, would speedily become known to all of the European creditors of that government.

THE CHINESE OBJECT.

They Strongly Protest Against Being Inoculated With the Anti-Plague Serum.

Washington, May 24.—The Chinese minister has received numerous telegrams from Chinese residents of San Francisco asking him to present to the order that they shall be inoculated with the anti-plague serum.

The minister commented upon the fact that the whites are to be treated, and expressed the opinion that this is not fair. The minister received a telegram from the Chinese general at San Francisco, which states that after a thorough investigation the state board of health has officially declared that there is no plague in San Francisco.

The Chinese, however, are preventing Chinese from leaving or entering the city unless inoculated. The Chinese who submitted to the operation at once became very ill and are now in a dying condition. All doctors, says a consul general, agree that inoculation is dangerous. There should be no cause for surprise, the minister thought, if under such circumstances prominent Chinese and Frank there was a conspiracy to kill them. The serum might be good for other people, but for the Chinese it might be a very bad thing.

RIOTING RENEWED.

A Policeman Shot and Killed and a Little Boy Badly Wounded in St. Louis.

St. Louis, May 24.—Renewed rioting and another fatality marked the progress of the strike for the St. Louis Transit Co.'s system.

A Cass avenue car was stopped at the corner of Twenty-third and Cass avenue in order that a crowd of strike sympathizers attacked the car, firing a number of shots. One of the bullets struck Special Policeman McRae, who was riding on the front platform with the motorman in the left arm, passing through his body and coming out on the right side. The policeman sank unconscious to the floor. Other patrolmen who had been stationed at the corner to protect the cars then charged the crowd and beat them back. A riot call was sent into the Ninth district station and a dozen mounted policemen came at full gallop to the scene. The combined force of men and horses on the operating table it was found that he was dead. McRae was about 60 years old, and was appointed to the position of policeman in 1904. He was married and had a family. He was a native of the Civil War on the Confederate side. He comes of a prominent family in New Orleans and was formerly a resident of Kansas City.

Eddie Manz, 3 years old, was shot through the leg by a man on a Cass avenue car. The little boy was sitting on the front doorstep when some small boys who had been throwing stones at a west-bound Cass avenue car ran up the alley south of the house. A man who is supposed to be an emergency policeman leaped out from the car and fired a shot at the boys. The shot struck Eddie Manz in the right leg near the hip. It is feared the wound will prove fatal.

The first car which has been run at night since the commencement of the strike was sent over the Park avenue line in charge of 15 heavily armed guards, and was rushed about lights. The car attracted a crowd at the corner of Park and Mississippi avenues, and the men on board fired a number of shots, slightly injuring two spectators. About 15 shots were fired as the car rounded the curve into Park avenue. A man named James Sullivan was hit in the side of the head by a bullet which passed through his clothes and inflicted a slight flesh wound. A man named Wm. Hodelman was struck on the right shoulder by one of the shots. Several others had narrow escapes from being hit.

R. B. Hodge, a conductor on the Tower Grove line, is a patient at St. John's hospital, suffering from injuries which, it is feared, will prove fatal. He was assaulted by a crowd of men on his car at the crossing of the line street Tuesday afternoon. One of them struck Hodge over the head with a club, inflicting an ugly wound. While some of the crowd held him, others seized the motorman, H. L. Kobusch, and dragged him from the car. Emergency Policeman Dunn, who was detailed on the car, attempted to interfere, but four men surrounded and disarmed him, and he was unable to do anything to save the face. The assailants knocked Hodge down and kicked him until he was unconscious. Kobusch and Dunn were taken to the hospital and are in the open field to the power house, two blocks away, where they obtained aid of a squad of police.

The men, not reposed with the representatives of the St. Louis Transit Co. by Harry Haws, president of the police board, as was expected. The police board, however, of the union decided that the proposition which Mr. Haws asked permission to submit to the company was practically the same as that which had been rejected. It is said there is no prospect of another conference.

Peterson, one of his agents, left for St. Louis on the 24th inst.

BOERS HAD BEEN INTRENCHED THERE

Driven Out By Gen. Hamilton's Force Aided By Smith-Dorrien's Brigade After Hard Fighting.

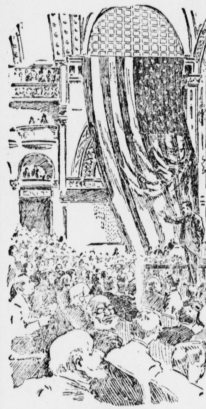

Many Free States Surrendered During the Last Few Days, Giving Up Horses, Rifles and Ammunition—Late War News.

London, May 24.—The war office publishes the following from Lord Roberts, from the south bank of the Rhenoster river, May 23, 1:30 p. m.: "We found, on arrival here this morning, that the enemy had been during the night. They had occupied a strong position on the north bank of the river, which had been carefully entrenched, but they did not think it advisable to defend it when they heard that Ian Hamilton's force was at Heilborn and that our cavalry, which had crossed the Rhenoster, was threatening their right and rear.

"The bridges over the Rhenoster, several culverts and some miles of the railway were destroyed.

"Ian Hamilton's force drove the Boers under Piet Dewet before them from Lindley to Heilborn. The passage of the Rhenoster was then disputed. Our loss might have been heavy but for a well-concentrated fire which brought Smith-Dorrien's brigade to the scene.

It Taxes Oleomargarine Ten Cents a Pound and Strictly Regulates the Sale Thereof.

Washington, May 24.—The oleomargarine question, which has been the subject of extended controversy before the agricultural committee of the house, reached a decisive stage when the subcommittee having the measure in charge reported a substitute for the pending Groat bill. The latter bill is practically prohibitory, taxing oleomargarine 10 cents a pound, and substitute proposes additional safeguards against the fraudulent sale of oleomargarine as butter.

The main provisions are that oleomargarine and like compounds shall be put up in one and two pound packages only; that each print shall have in large indelible letters the word "oleomargarine;" the print shall then be wrapped in paper bearing the printed word "oleomargarine;" out of this of this package the revenue stamp shall be wrapped.
